## FLUTE QUARTET

The **Stage** area should have at least 3 x 4 meters in extend with two stools without arms.

In **Concert halls** we normally play without amplification, but a microphone for announcements on a stand with on/off switch will be useful.

For **Open-Air-Concert** overhead microphones for the front area of the stage are needed as well as a microphone for announcements on a stand with on/off switch.

### Children-/Education-Concerts

fit the same requirements. A microphone for moderation can either be on a stand or a headset with on/off switch

Please supply a **lockable cloak room** with mirror near the stage.
